POLYTECHNIC UNIVERSITY OF THE PHILIPPINES COLLEGE OF ENGINEERING COMPUTER ENGINEERING DEPARTMENT

AREA I. THE VISION, MISSION, GOAL AND OBJECTIVES (VMGO)

PARAMETER A – STATEMENT OF THE VISION, MISSION, GOALS AND OBJECTIVES

1. SYSTEM-INPUTS AND PROCESSES

A. State the Vision of the University/College

- Clearing the paths while laying new foundations to transform the Polytechnic University of the Philippines into an epistemic community.

B. State the Mission of the University/College

- Reflective of the great emphasis being given by the country's leadership aimed at providing appropriate attention to the alleviation of the plight of the poor, the development of the citizens, and of the national economy to become globally competitive, the University shall commit its academic resources and manpower to achieve its goals through:
 - Provision of undergraduate and graduate education which meet international standards of quality and excellence;
 - Generation and transmission of knowledge in the broad range of disciplines relevant and responsive to the dynamically changing domestic and international environment;
 - Provision of more equitable access to higher education opportunities to deserving and qualified Filipinos; and
 - Optimization, through efficiency and effectiveness, of social, institutional, and individual returns and benefits derived from the utilization of higher education resources.

C. State the Goals of the Academic Unit

The College of Engineering envisions itself to be the center of excellence in education. It is committed to produce competitive engineers who will serve as catalyst for sustainable growth and development in national and international levels.

1. The College of Engineering envisions itself to be the center of excellence in education. It is committed to produce competitive engineers who will serve as catalyst for sustainable growth and development in national and international levels.

POLYTECHNIC UNIVERSITY OF THE PHILIPPINES
COLLEGE OF ENGINEERING
COMPUTER ENGINEERING DEPARTMENT

2. Produce world-class professionals as industry leaders and job providers;
3. Develop and produce facilities through the use of adapted technology and indigenous materials; and
4. Maintain, upgrade, and improve facilities through the adaptation of engineering technologies.

D. State the Objectives/Outcomes of the Program

1. Strengthen the Bachelor of Science in Computer Engineering program consistent with global trends;
2. Develop the critical thinking and communication skills of students, giving emphasis to research and extension services;
3. Enhance the competencies of students to evaluate, assess, design and operate safe, effective, economically-efficient and environmental friendly computer-based system;
4. Create a conducive teaching and learning atmosphere with emphasis to Bachelor of Science in Computer Engineering faculty and students' growth and academic freedom;
5. Establish network with educational institutions, Industries, GO's and NGO's, local and international, which could serve as:
 - a. Funding sources and/or partners of researches;
 - b. Sources of new technology;
 - c. Centers for faculty and students' exchange programs and on-the-job trainings; and
 - d. Grantees of scholarship/additional facilities.
6. Conduct continuously action researches on the needs of laboratory and other facilities that could be locally produced or innovated using local materials and adapted technology.
7. Equip graduates with appropriate knowledge and technical skills imbued with desirable work attitudes and moral values, through enhanced teaching/learning process by using multimedia facilities on top of traditional methods;
8. Develop faculty as competent mentors and quality researchers through advanced studies and other facets of continuing professional education

E. Illustrate and describe the historical formulation, monitoring and review of the VMGO.

- 1 Presentation of the proposed Vision and Mission (VM) by the candidate for presidency to the Search Committee for PUP President.
- 2 Adoption of the VM of the newly elected university president
- 3 Presentation, critiquing and reformulation of the VM to and by the different stakeholders: faculty members, administrative staff, students, alumni, linkages, and board of regents.
- 4 Presentation and approval of the reformulated VM to the University Strategic Planning Team.
- 5 Adoption of the approved VM by the academic and non-academic communities of the University.
- 6 College or Office Strategic Planning follows suit to formulate its respective Goals and Objectives (GO).
- 7 Presentation, critiquing and reformulation of the GO to and by the different stakeholders: faculty members, administrative staff, students, alumni, outside community and linkages
- 8 Presentation of the reformulated GO to the concerned vice president through the submission of a development plan of the Dean or the Director/Chief.
- 9 Approval of the GO by the president through the acceptance of the Development Plan

2. IMPLEMENTATION

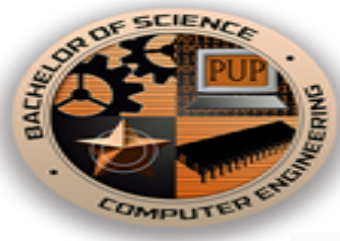

- Describe the stakeholders' participation in the formulation/monitoring/review of the Objectives of the Program.

Stakeholders	Nature of Participation	Inclusive Dates
a. Board of Regents/ Trustees	Approval of the VM during the 1 st BOR meeting with the newly elected president	March 2013
b. Administration	Attendees and organizers of different consultation programs as well as the university-wide strategic planning team where the VM served as the foundation of every plan	University Strategic Planning: March – November 2013

POLYTECHNIC UNIVERSITY OF THE PHILIPPINES
 COLLEGE OF ENGINEERING
COMPUTER ENGINEERING DEPARTMENT

c. Faculty	Participants of the college strategic planning where the suggested VM were reviewed and criticized; and the GOs of the academic unit were formulated.	College Strategic Planning:
d. Non-Teaching Personnel	Participants of the college strategic planning helped in the formulation of the GO of the academic unit; and included as respondents of the VM awareness and acceptability surveys	March – November 2013
e. Students	Attendees during meetings for consultation, review and criticism of VMGO; and included as respondents of the VM awareness and acceptability surveys	
f. Alumni	Attendees for consultation, review and criticism of VMGO and included as respondents of the VM awareness and acceptability surveys	
g. Cooperating Agencies	The national priorities set by the various agencies usually served as basis for setting of VMGO	
h. Industry Sector	The development goals of the labor sector serves as basis for setting of VMGO	
i. Other Concerned Groups (Parents)	Attendees for consultation, review and criticism of VMGO and included as respondents of the VM awareness and acceptability surveys	

**POLYTECHNIC UNIVERSITY OF THE PHILIPPINES
COLLEGE OF ENGINEERING
COMPUTER ENGINEERING DEPARTMENT**

4. OUTCOMES

- Present the BOR/BOT Resolution Approving the VMGO; include BOR/BOT Resolution amendments (if there is any);

 Office of the President
 POLYTECHNIC UNIVERSITY OF THE PHILIPPINES
 Office of the President
 OFFICE OF THE UNIVERSITY BOARD SECRETARY

CERTIFICATION

This is to certify that during the 159th Regular Meeting of the Board of Regents held on 12th October 2016 at CHED Executive Lounge, 4th Floor, HED Building, UP Central Office, UP Campus, Diliman, Quezon City, the Board approved the Polytechnic University of the Philippines (PUP) Quality Manual for QMS ISO 9001:2015 with Procedures and Work Instructions as per Board Resolution No. 1694, Series of 2016.

WITNESS MY HAND and dry seal this 27th day of October 2016.

ATTY. GARY CANTAR ALIBE
 Office of the Board Secretary

QUALITY MANUAL
 (with Procedures and Work Instructions Manual)

This document shall be deemed uncontrolled once labeled as Certified. Don't read, verify, distribute.
 Copy No. _____ Revision: 1 Effective Date: (October 12, 2016)

As the Board of Regents approved the Quality Manual of the University bearing its Vision and Mission, it was understood that the University Vision and Mission were also approved.

POLYTECHNIC UNIVERSITY OF THE PHILIPPINES COLLEGE OF ENGINEERING **COMPUTER ENGINEERING DEPARTMENT**

- Describe the results of the interview with the administrators, faculty, staff and students.

The administrators, faculty, staff and students all rated the VMGO of the Institution, College and Department are aware and accepted the VMGO. Likewise, all of them agreed that the University, College and Computer Engineering Department were able to deliver its VMGO to the various stakeholders.

4. BEST PRACTICES

- Cite as many best practices as you can on Parameter A such as governance based on the principles of participation and transparency leading to the accomplishment of the VMGO
 - Consultation of different sectors for the formulation and review of VMGO
 - Conduct survey on awareness and perception of VMGO
 - Included during Quiz and Exam
 - Posted in different information board and media
 - Discuss and presented during the student/freshmen orientation
 - Discuss and presented with the parents during Freshmen, Design Project and Seminars and Field Trips orientation
 - The VMGO can be read in the PUP website, Social Media Accounts of the different student organizations and through the Learning Management system of the department.

POLYTECHNIC UNIVERSITY OF THE PHILIPPINES COLLEGE OF ENGINEERING COMPUTER ENGINEERING DEPARTMENT

PARAMETER B – DISSEMINATION AND ACCEPTABILITY

1. SYSTEM-INPUTS AND PROCESSES

- State the Forms/Media used in the dissemination of the VMGO

Form	Type of Audience/Cientele	No. of Cientele
1. Electronic copy posted at the PUP website	Online-searchers and PUP website visitors	1,413 monthly average
2. Electronic Advertisement flashed at the electronic board	PUP community	6,000 daily average
3. Printed at the newsletters of the university as well as of the colleges	PUP community	5000/issue
4. Printed at the institutional syllabi, bulletin of information and bulletin boards	PUP community and other stakeholders	4,000 daily average

COVER STORY

PUP Holds Workshop (from p. 1)

Southeast Asia Interdisciplinary Development Institute.

Meanwhile, PUP President Dr. Emanuel C. de Guzman delivered a message encouraging all the participants of the workshop to maintain an open mind to hear suggestions and share what they know for the University's benefit.

The workshop succeeded with Dr. Rodan's dry run and explanation of the strategic visioning process. Seven teams were formed and each of the participants were assigned to a team to form the first draft of PUP's proposed strategic vision, mission, goals, and values. Dr. Rodan mentioned that the aim of the workshop is to build a road map for the University — that is, how to put into action the University's agenda. "In doing this, a review of the University's past performance [is crucial to the undertaking]," said Dr. Rodan.

The seven teams with their respective leaders from the different offices in PUP were as follows: Systems Analysis led by Dr. Marietta P. Demetina; Historical Review of the Vision, Mission, Goals and Objectives led by Dr. Amalia C. Rosales; Stakeholders' Needs Analysis led by Dr. Fe B. Baronia; Environmental Scan and Strengths, Weaknesses, Opportunities, and Threat (SWOT) Analysis led by Dr. Danilo T. Reyes; Future Vision, Mission, Goals and Strategies led by Dr. Milagrina A. Gomez; Shared Values led by Dr. Hermina A. Manintin; and Organizational Structure led by the PUP President Dr. De Guzman.

The teams presented their output and "cheers" for the Rodan's HRD Philippines representatives. The results of the evaluation will be revealed in the second phase of the strategic planning workshop. Because of the Phase 1 success, Dr. Victoria C. Naval, Executive Vice President, commended the participants for a job well done. The second phase is slated tentatively in September.

4 | THE OBSERVER

The continuation of the discussion of the PUP Strategic Planning Phase 1

POLYTECHNIC UNIVERSITY OF THE PHILIPPINES
COLLEGE OF ENGINEERING

Photos from The Observer Volume 1 Issue 2 (June 2012) showing Dr. Emanuel C. De Guzman, PUP President, consulting the PUP Community: faculty members, students, administrative personnel, alumni and other stakeholders, on his vision, mission and plans and programs for the University

POLYTECHNIC UNIVERSITY OF THE PHILIPPINES COLLEGE OF ENGINEERING COMPUTER ENGINEERING DEPARTMENT

2. IMPLEMENTATION

- Cite VMGO dissemination activities, and provide captions to all pictorials *if necessary*;

The Computer Engineering Department uses different media to disseminate the VMGO. This includes the following:

- PUP Website
- Bulletin Boards
- Facebook, Twitter, Instagram,
- Desktop wallpaper
- Computer Engineering Learning Management System

Other activities are included in the conduct of classes. During the start of the 1st day of semester, faculty members discuss the VMGO and classroom policies. Also, the VMGO are also part of the questions during quiz or examinations or as student's recitation.

Parents were also informed of the VMGO during the freshmen orientation conducted at the 1st semester of the school year. They are also informed of the VMGO when the Chairperson calls for a general meeting to discuss the guidelines on Design Project and Seminars and Field Trips.

POLYTECHNIC UNIVERSITY OF THE PHILIPPINES COLLEGE OF ENGINEERING COMPUTER ENGINEERING DEPARTMENT

The image shows two side-by-side screenshots of the PUP website. The left screenshot displays the 'Vision' and 'Mission' sections for the College of Engineering. The 'Vision' statement is: 'Creating the path into a premier institution to ensure the Polytechnic University of the Philippines remains a premier university.' The 'Mission' statement is: 'Realize the great potentials brought by the nation's diversity aimed at providing appropriate education and advancement of the digital program, the development of students, and of the national economy in a more globally competitive, the international context in academic, research and program level to gain through:

1. Provision of quality education (graduate education) which meet international standards in quality and excellence;
2. Development and advancement of knowledge into broad range of disciplines, streams and expertise to be generally changing towards all international standards;
3. Provision of more equitable access to higher education opportunities to deserving and qualified Filipinos; and
4. Attainment, through efficiency and effectiveness, of total institutional and individual success and growth to realize the nation's higher education objectives.

The right screenshot shows the 'Vision' and 'Mission' sections for the College of Engineering. The 'Vision' statement is: 'The College of Engineering envisions itself to be the center of excellence in Engineering Education.' The 'Mission' statement is: 'The College of Engineering is committed to produce competitive engineers who will serve as catalyst for sustainable growth and development in national and international levels.' The 'Goals' section lists:

1. Provide quality education through instruction, advisory research and extension services;
2. Produce world class professionals, engineers, industry leaders and job providers;
3. Develop and produce facilities through the use of adapted technology and indigenous materials;
4. Maintain, upgrade or improve facilities through the application of engineering technology.

Below the screenshots, a text box contains the caption: 'The PUP Vision and Mission posted at the PUP website www.pup.edu.ph'

POLYTECHNIC UNIVERSITY OF THE PHILIPPINES COLLEGE OF ENGINEERING COMPUTER ENGINEERING DEPARTMENT

- Describe how members of the Institution (administrators, faculty, non-teaching staff, and students) can articulate procedures, guidelines and protocols of the University/College.

The members of the PUP community have their respective roles, duties, and responsibilities in the improvement, enhancement, and tailor fitting of the vision and mission of the University, goals of the college, and objectives of the programs.

The vision and mission of the University is part of President Emanuel De Guzman's platform/plan for the University during his bid for presidency. Hence, when appointed, his VM became the official VM of PUP. The role of the primary stakeholders is to enhance / improve the said VM during the first strategic planning of the PUP officials. Members of the planning team were composed of deans, directors, chairpersons, professors, student representatives which were divided into groups to examine the VMGO through SWOT analysis. After this, the groups were asked to report the analysis to the body to shed light on the formulated VMGO.

3. OUTCOMES

- Present the results of the research study on awareness and acceptability of the VMGO by the different stakeholders;

The administrators, faculty, staff and students all rated the Vision of the Institution of 4.42 and 4.40 respectively. This simply implies that the stakeholders accept the Vision and Mission of PUP. The Goals of the College of Engineering were rated acceptable by the different stakeholders. Goal No. 2 which states "Produce world-class professionals as potential industry leaders and job providers" was rated 4.33 the highest among the Goals of the College while Objective No. 7 of the department have the highest rating of 4.35 which is acceptable.

Moreover, the various activities of the Department to create awareness of the VMGO to the different stakeholders was evidently fruitful because all stakeholders were aware of the VMGO.

The VMGO of the Institution, College and Department are aware and accept the VMGO. Likewise, all of them agreed that the University, College and Computer Engineering Department were able to deliver its VMGO to the various stakeholders.

POLYTECHNIC UNIVERSITY OF THE PHILIPPINES COLLEGE OF ENGINEERING COMPUTER ENGINEERING DEPARTMENT

➤ **Describe the implementation of the VMGO and their congruence with educational practices and activities;**

The program's curriculum is congruent with the national development thrusts of pursuing rapid and sustainable economic growth and development, improves the quality of life of the Filipino, empowers the poor and marginalized, and enhances our social cohesion as a nation. With these thrusts, the program aims to develop students who are globally competitive and able to develop and improve the quality of their lives through employment.

To parallel the curriculum with the vision and mission of the university, as well as with the goals and objectives of the academic unit, programs are one with the president in achieving his vision for the University to become an epistemic community through pursuing academic excellence, producing research, promoting transparency while advocating academic freedom, engaging in extension and outreach program and inculcating values to protect and care for physical plant, facilities and other resources.

➤ **Cite instances or evidences to show that the program goals and objectives are achieved.**

The Program Goals and Objectives were achieved based on the different awards and achievements received by the Department inside and outside PUP. Both faculty and students attended different activities for their advancement.

- The program had produced Notable Graduates
- Students were awarded inside and outside PUP
- Result of the Faculty Evaluation
- Awards received by the faculty members
- Awards/Recognitions received by the students local, national, international
- Faculty members research presentation and publication in a refereed journal
- Faculty members professional affiliation

BEST PRACTICES

- Cite as many as best practices as you can on Parameter B such as governance that facilitates the accomplishment of the VMGO.

The effective dissemination and implementation of the University's Vision and Mission is not only through the administration but also through the overall cooperation of all the stakeholders of the academic community.

The students, who are the primary beneficiaries of a good and effective implementation of this Vision and Mission, meanwhile, could also be valuable partners in its dissemination.

In promoting the University's Vision and Mission, together with the College Goals and Program Objectives, the college maximized websites that students operate and the social media platforms they frequently use.

The professors and instructors have also included VMGO in their presentations or lectures which they use in their respective classes.

**POLYTECHNIC UNIVERSITY OF THE PHILIPPINES
COLLEGE OF ENGINEERING

School: POLYTECHNIC UNIVERSITY OF THE PHILIPPINES
 Program: Bachelor of Science in Computer Engineering
 Date of formal Survey:
 Date of Level III Phase 1 Accreditation Visit:

AREA EVALUATED: AREA I: VMGO
 Accreditor:
 Remarks:

RECOMMENDATIONS	ACTION TAKEN BY HOST	DEGREE OF % OF COMPLIANCE	EVIDENCE OF COMPLIANCE
1. A collaboration and participation of the stakeholders should be undertaken in the implementation of the VMGOs. The upcoming Alumni Homecoming may be used as a venue to solicit important feedback from the alumni. Similarly, the industry partners may give their valuable feedback through the internship/practicum programs of the students. Parents, student leaders and students may be invited during college meetings and their inputs be given credits.	<ul style="list-style-type: none"> Various stakeholders were consulted in the formulation of the VMGO. Valuable feedbacks and their inputs were given credits. 	100%	<ul style="list-style-type: none"> Documents of the various consultation of the PUP President published in "The Observer" Minutes of the meeting of the Department
2. Since the University has adopted a new VGMO, a follow up research may be conducted to assess its level of acceptance. Whatever result this will give may be used to further improve said VGMO. There	<ul style="list-style-type: none"> A study on the Level of Acceptance and Awareness was conducted 	85%	<ul style="list-style-type: none"> Result of the study

POLYTECHNIC UNIVERSITY OF THE PHILIPPINES
 COLLEGE OF ENGINEERING
COMPUTER ENGINEERING DEPARTMENT

<p>should also be a study conducted on the College level specifically on their goals and objectives. In addition to the awareness and acceptability level, it would also be good to determine which of the strategies in the dissemination is the most effective. Immediately after, this may be submitted to the Academic and Administrative Councils for their recommendation and subsequent final approval of the University's Governing Board.</p>			
<p>3. It would help in the retention in the memory of all stakeholders if copies of the VGMO were posted in strategic places. Bigger posters may be set up, creating a feeling of ownership of the new VGMO.</p>	<ul style="list-style-type: none"> • The VMGO can be seen in the PUP website, Social Media, and CpE Learning Management System. • The VMGO is posted in strategic places like bulletin boards, classrooms and various medium of dissemination 	100%	<ul style="list-style-type: none"> • Screenshots of the website • Pictures of various bulletin boards and media
<p>4. The University may consider conducting a translation of the VGMO in the vernacular and the same be printed alongside of the English version.</p>			

POLYTECHNIC UNIVERSITY OF THE PHILIPPINES
 COLLEGE OF ENGINEERING
COMPUTER ENGINEERING DEPARTMENT

<p>5. The College of Engineering and the Computer Engineering Department is requested to immediately revisit their objectives/outcomes. These outcomes should be student centered, what the University expects its graduates to become after graduation. Separate outcomes for the faculty members may be done and should form part of the Faculty Development Program.</p>	<ul style="list-style-type: none"> The Objectives of the Department was formulated to include the student and faculty as to what to expect for their development. 	<p>100%</p>	<ul style="list-style-type: none"> Objectives of the Department Awards/Recognition received by the faculty and students and other activities supported by the University to further enhance the capability of the faculty and students
