- While waiting along the route, stay alert and look out for falling debris.
- DON'T... Run, DON'T Push, DON'T Talk, DON'T Return, DON'T bring your things
- Quietly but quickly proceed to the designated evacuation area for the class and wait for further instructions from the teacher
- NEVER go back to the building once you are outside

Buildings should be inspected by engineers for possible damage after an earthquake. Students should stay in the open area and wait for their parents/guardians to pick them up.

- o For the teacher, make sure all students are accounted for once in the designated evacuation area.
