QUALITY ASSURANCE CENTER

The PUP Quality Assurance Center (QAC)

Established in June 2008, the PUP Quality Assurance Center plays a crucial role in sustaining the quality outcomes of the University as an epistemic community. Recognizing that quality is the University's primary responsibility, the PUP QAC strives to nurture a culture of quality through the development, implementation, monitoring and review of quality assurance-related policies, procedures and projects to meet institutional, national and international standards. It also conducts periodic review of curricular offerings, ensuring that academic programs remain responsive to stakeholders and societal needs.

Acknowledging that quality assurance is a holistic, participatory and collaborative process, the Center functions under the direct supervision of the Vice President for Academic Affairs and works closely with Colleges, Branches, Campuses and non-academic offices of the University.

Core Functions:

1. Assist the academic sector in the preparation and packaging of documents to effectively facilitate the accreditation, government recognition and assessment of academic programs.
2. Enhance the institution's capacity in designing, delivering and managing curricular programs and services to achieve quality learning outcomes.
3. Identify areas for reform and/or continuous improvement along the key areas of governance and management, quality of teaching and learning, relations with the community and management of resources.
4. Provide basis for policy options and informed decisions for development assistance to the Colleges, Branches and Campuses.
5. Effectively communicate current and relevant information about the achievements, quality system and processes of the university and its academic programs.
